
Anti-HPV bioprotein gel

【Product Name】 Anti-HPV Bioprotein Gel

【Model Specifications】 g/tube

【Product Structure】 This product consists of a gel and a vaginal applicator. The gel is composed of anhydrided bovine β -lactoglobulin, purified water, carbomer, and menthol. The vaginal applicator consists of a cap, tube, push rod, and sealing plug, all made of PET.

【Key Performance Indicators】

1. The cytotoxicity of the materials used in this product should be no greater than Class II.
2. The product should not cause allergic reactions or intradermal irritation.

【Scope of Application】 Used to reduce local HPV load

【Contraindications】 Contraindicated for those allergic to this product, menstruating women, and pregnant women.

【Instructions】

1. Clean hands and vulva before use.
2. Open the package, remove the vaginal applicator, first remove the sealing plug, then remove the cap, and use the cap to push the push rod.
3. Lie supine with your hips elevated and legs apart. Gently push the cap to insert the gel deep into the vagina.
4. Use once daily, one tube at a time.

【Precautions】

1. Discontinue use during menstruation. Use with caution if you have skin allergies.
2. If you experience any burning sensation, redness, or swelling during use, discontinue use, wash thoroughly, and consult a physician if necessary.
3. This product is recommended for use alone. If combined with other medications, consult a physician.
4. This product is disposable and should not be used if the aluminum foil bag is damaged or expired.
5. Urinate before use to avoid affecting the effectiveness.
6. This product is for external use only. Do not take orally. Keep out of reach of children.
7. Do not use for the prevention of sexually transmitted diseases during intercourse.

One-time use, destroyed after use

Do not use if the packaging is damaged
